For over 50 years, Safari Club International (SCI) has been the leader in defending the freedom to hunt and promoting wildlife conservation worldwide. SCI recently launched the SCI Center for Conservation Law and Education. SCI is unique among hunting conservation organizations in having in-house legal counsel, state liaisons, and a “Hunters’ Embassy” on Capitol Hill. Together, these professionals litigate mission-critical cases and educate state wildlife commissions and federal policymakers about issues of importance to hunting and wildlife conservation.

The Second Amendment Foundation (SAF) is dedicated to safeguarding and promoting the fundamental rights of individuals enshrined in the Second Amendment of the United States Constitution. SAF engages in aggressive legal action to ensure the principles of armed self-defense, personal liberty, and the ownership of arms are defended, secured, and restored. Through public education initiatives, SAF teaches the importance of the Second Amendment to promote a society that values and exercises the right to keep and bear arms.
